

The Global Access Point to e-Infrastructure

Discover the new visual, services and functionalities of BELIEF:

- benefit from a user-friendly, dynamic, interactive and autonomus new e-Infrastructure portal;
- publish your projects findings and results;
- spotlight your events in the new events calendar;
- manage by yourself and make available all information about your activities, including videos;
- exploit BELIEF Digital Library's content for innovative usage and access all e-Infrastructure documentation and information published via the portal;
- maximise your exposure worldwide, over the boundaries of a single project website;
- network directly with key players all around the world;
- support, share, exploit and foster knowledge and research advances;
- host, preserve and manage your e-Infrastructure material and exploit existing documentation.

Contribute to and benefit from BELIEF international initiatives:

- two eConcertation meetings promoted by the European Commission;
- two brainstorming events;
- three international symposia (India, Latin America, South Africa);
- BELIEF multimedia publications including a five editions of a bright new eMagazine and a DVD.
