Making an impact

Delivering strong message around the need for **standardisation**
bringing innovation

Engaging with diverse vertical sectors through seminars, tutorials,
workshops & International events

Supporting the implementation of European standards

Reporting on **Grid adoption challenges & best practices**

Fostering synergies between other SDOs such as W3C, SNIA,
DMTF, OASIS

Ensuring OGF standards are aligned with the needs of industry
through the **OGF-Europe Industry Expert Panel**

Delivering Value-Add

- **Reports** on adoption challenges & best practices
- **Workshops** spotlighting standardisation issues **GIN at OGF23**
- **Community Outreach Seminars** on specific vertical & horizontal market sectors **Digital Repositories at OGF23**
- **Surveys** on Grid, adoption, trends & practices **1st Survey OGF23**
<http://tinyurl.com/4ljm2w>
- **In-depth Tutorials** transferring practical skills in implementing & deploying applied distributed computing solutions - **3 sponsored at OGF23**
- **2 International events:** OGF23, in collaboration with BEinGRID; OGF25, in collaboration with the EGEE User Forum in early 2009.
- **Industry Expert Group, 17** members ensuring OGF standards are aligned with the needs of industry
- Interactive, multi-channel dissemination & **global outreach**

Synergising with the Community

- Over **120 press clippings & cuttings** (Jan-June '08)
- 1st Announcement: **80 articles published globally**
- Support **Press Conference** at OGF23

GridTalk

- Input to Grid Impact Reporting
- Promoting resources for adopters: GridCafé
- Dynamic, interactive global communications – GridCafé & GridIM

e-IRGSP2

- Adding to Grid Adoption Challenges Reports
- Attendance at Community Outreach Seminars & input to Community

Best Practice Reports
